Directors' report

The Directors present their Directors' report and audited financial statements for the year ended 31 December 2020.

Principal activity

Gartner Ireland Limited (the "Company") is a subsidiary of Gartner, Inc., the world's leading research and advisory company. The Company is engaged in the provision and distribution of research products and advisory services. Additionally, the Company licenses intellectual properties and together with Gartner, Inc., equips business leaders with indispensable insights, advice and tools to achieve their mission-critical priorities today and build the successful organisation of tomorrow.

Business review

Overview

Gartner, Inc., a corporation organized under the laws of the State of Delaware, USA and headquartered in Stamford, Connecticut, USA ("Gartner USA"), and its direct and indirect subsidiaries together (collectively "Gartner") constitute the world's leading research and advisory company. The Company provides business services and products both within and outside Ireland through its own employees, independent sales agents and affiliated companies in the following business segments:

- **Research** provides trusted, objective insights and advice on the mission-critical priorities of leaders across all functional areas of the enterprise through reports, briefings, proprietary tools, access to Gartner research experts, peer networking services and membership programs that enable the clients to drive organizational performance.
- **Conferences** provide business professionals across an organization the opportunity to learn, share and network. From Gartner Symposium/Xpo series, to industry-leading conferences focused on specific business roles and topics, to peer-driven sessions, Gartner's offerings enable attendees to experience the best of Gartner insight and advice.
- **Consulting** combines the power of Gartner market-leading research with custom analysis and on-the-ground support to help chief information officers and other senior executives driving technology-related strategic initiatives move confidently from insight to action.

Competitive Advantages

The Company believes that the principal factors that differentiate it from its competitors are:

- Superior research content — The Company believes that it creates and has access to the broadest, highest-quality and most relevant research coverage across all major functional roles in an enterprise. Gartner's independent operating model and research analysis generates unbiased insight that it believes is timely, thought-provoking and comprehensive, and that is known for its high quality, independence and objectivity.
- Leading brand name — The Gartner name has been established for over 40 years.
- Global footprint and established customer base — The Company and its subsidiaries have a global presence with clients in more than 100 countries on six continents.
- Experienced management team — The directors and management team of the Company and its subsidiaries are composed of research veterans and experienced industry executives with long tenure at Gartner.
- Substantial operating leverage in the Company's business model — The Company has the ability to distribute its intellectual property and expertise across multiple platforms, including research and advisory subscription and membership programs, conferences and consulting engagements, to derive incremental revenue and profitability.
- Vast network of analysts and consultants — As of 31 December 2020, Gartner Ireland Limited had access to approximately 2,150 research experts and 730 experienced consultants located around the world. Gartner research experts are located in more than 30 countries, enabling the Company to cover vast aspects of business and technology on a global basis.

Directors' report *(continued)*

Principal Risks & Uncertainties

The Company and its subsidiary companies operate in a highly competitive and rapidly changing environment that involves numerous risks and uncertainties, some of which are beyond the Company's control. In addition, the Company and its subsidiary companies and their clients are affected by global economic conditions and trends. The following discusses many, but not all, of the risks and uncertainties that may affect the Company's future performance, and is not intended to be all-inclusive. Any of the risks described below could have a material adverse impact on the Company's business, prospects, results of operations, financial condition, and cash flows.

- There is uncertainty with respect to the extent to which the Company and its subsidiaries' operations, financial condition and cash flows may be negatively affected by the COVID-19 crisis.
- Gartner USA, the Company, and its subsidiaries may not be able to maintain the quality of the existing products and services.
- Gartner USA, the Company, and its subsidiaries may not be able to enhance and develop the existing products and services or introduce the new products and services that are needed to remain competitive.
- Technology is rapidly evolving, and if Gartner USA, the Company, and its subsidiaries do not continue to develop new product and service offerings in response to these changes, their business could suffer.
- The Company and its subsidiaries' research business depends on renewals of subscription-based services and sales of new subscription-based services for a significant portion of the revenue, and failure to renew at historical rates or generate new sales of such services could lead to a decrease in the revenues.
- The Company and its subsidiaries' consulting business depends on non-recurring engagements and failure to secure new engagements could lead to a decrease in revenues.
- The profitability and success of the Company and its subsidiaries' conferences and other meetings could be adversely affected by external factors beyond their control.
- Gartner USA, the Company, and its subsidiaries may not be able to attract and retain access to qualified personnel which could jeopardise the quality of their products and services and their future growth plans.
- If the Company is unable to enforce and protect its intellectual property rights, its competitive position may be harmed.
- Privacy concerns could damage the Company and its subsidiaries' reputation and deter current and potential clients from using their products and services or attending their conferences.
- The Company and its subsidiaries are exposed to risks related to cybersecurity.
- The Company and its subsidiaries may experience outages and disruptions of their online services if they fail to maintain an adequate operations infrastructure.
- The Company and its subsidiaries have grown, and may continue to grow, through acquisitions and strategic investments, which could involve substantial risks.
- The Company and its subsidiaries' sales to governments are subject to appropriations and may be terminated early.
- Gartner USA, the Company, and its subsidiaries may not be able to maintain the equity in the brand name.
- Natural disasters, pandemics, terrorist acts, war, actions by the governments, and other geopolitical events could disrupt the Company and its subsidiaries' operations.
- The Company and its subsidiaries are subject to risks from operating globally.
- The Company and its subsidiaries' operating results could be negatively impacted by global economic conditions.
- The Company and its subsidiaries face significant competition and failure to compete successfully could materially adversely affect their results of operations, financial condition and cash flows.
- The Company is exposed to volatility in foreign currency exchange rates from its international operations.
- Failure to comply with complex laws and regulations could have a material adverse effect on the Company and its subsidiaries' operations or financial condition.

Directors' report *(continued)*

Performance Review

Gross profits for the year of €77,163,000 compared with €49,478,000 for the prior year represent a 56% increase. The Company continues to execute a strategy to grow its business and improve operating margins.

Operating results for the financial year show an operating loss of €17,944,000 compared to an operating loss of €10,768,000 for the prior year. In April 2020, the Company acquired additional intellectual property rights (note 13). The decreased operating profit is primarily driven by amortisation of those intangible assets.

In monitoring performance, the directors and management have regard to a range of key performance indicators (KPI's) including the following:

<i>KPI</i>	Performance in 2020	Performance in 2019
Operating profit as a percentage of turnover	-2.5%	-1.4%
Net operating costs as a percentage of turnover	13%	8%
	€'000	€'000
Cash at bank and in hand	5,030	1,917
Trade debtors	17,467	18,949
Deferred revenue	42,808	44,170

Financial instruments

The Company has foreign exchange transaction risk since it typically enters into transactions in the normal course of business that are denominated in foreign currencies that differ from the local functional currency. The Company enters into short-term foreign currency forward exchange contracts to mitigate the economic effects of some of these foreign currency transaction risks.

Results and dividends

Details of the profit for the year are set out in the Profit and loss account on page 11 and in the related notes to the financial statements.

The Company did not pay any dividend in the current year (2019: *€nil*).

COVID-19 impact

The coronavirus disease ("COVID-19") pandemic has affected nearly every region in the world and has created significant uncertainties and disruption in the global economy. The Company and its subsidiaries are closely monitoring the pandemic-related developments, and their highest priority is the health and safety of their associates, clients, vendors, partners, and other stakeholders. The Company and its subsidiaries are working closely with clients to provide best in class COVID-19 related research to assist them in achieving their mission critical priorities.

As a result of the COVID-19 pandemic, the Company and its subsidiaries have temporarily closed Gartner offices in the Europe, United Kingdom, India and several other impacted locations around the world and implemented significant travel restrictions. Although the Company and its subsidiaries have plans to reopen most offices in the fall of 2021, reopening is subject to many factors outside of their control. As a result, it is difficult to predict for certain when or how they will begin to lift the actions put in place as part of their business continuity plans, including work from home protocols and travel restrictions.

Directors' report *(continued)*

COVID-19 impact *(continued)*

The Company and its subsidiaries have seen negative impacts to all of their segments with Conferences being the most impacted. In response to the COVID-19 pandemic, the Company's subsidiaries cancelled all in-person conferences from March 2020 through at least August 2021. The Company pivoted producing virtual conferences with a focus on maximizing the value they deliver to their clients. During 2020, the Company and its subsidiaries successfully held 5 and 4 virtual conferences (excluding single day, local virtual meetings), respectively, during the second half of the year. These virtual conferences are expected to result in significantly less revenue and gross contribution, but we believe aid in client retention and engagement. The safety of the Company and its subsidiaries' associates and clients remain their top priority so future in-person conferences will be held only if it is determined the relevant impacts of COVID-19 have sufficiently receded in the jurisdictions where conferences are to be held. The consulting and research businesses also experienced a slowdown. In response to the pandemic's impact to the business, the Company and its subsidiaries implemented cost avoidance initiatives in the first half of 2020 including significant limitations on hiring and third-party spending, reductions to discretionary spending and elimination of non-essential travel and re-prioritisation of capital expenditures. The Company and its subsidiaries began to restore certain investments in the business during the second half of 2020 and will likely continue these investments in 2021 and future periods.

Any future asset impairment charges, increase in allowance for doubtful accounts, or restructuring charges could be more likely if the negative effects of the COVID-19 pandemic continue and will be dependent on the severity and duration of this crisis. To date, the Company has not observed any material impairments of its assets or a significant change in the fair value of assets due to the COVID-19 pandemic.

Directors

The directors who held office during the year, and up to the date of this report, unless otherwise noted, were as follows:

Anthony O'Connor
Colm O'Connell (resigned 15 December 2020)
Kimberley Holland (appointed 17 September 2020)
William Dorgan (resigned 5 April 2020)
Eric Paulak
Ellen Keane
Mark Wiedemer (appointed 18 March 2020)
Bryan Hickson (appointed 15 December 2020)

Accounting records

The directors believe that they have complied with the requirements of Section 281 to 285 of the Companies Act 2014 with regard to books of account by employing accounting personnel with appropriate expertise and by providing adequate resources to the financial function.

The books of account were maintained by Gartner's centralised accounting department located in Fort Myers, Florida, USA and at Tamesis, The Glanty, Egham, Surrey, UK. The books of account are also made available at the Company's registered office as required.

Disclosure of information to the auditor

The directors who held office at the date of approval of this directors' report confirm that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditor is aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditor is unaware.

Directors' report *(continued)*

Audit committee

Pursuant to Section 167 of the Companies Act 2014, companies of a certain size require the directors to establish an audit committee or to explain the reasons why they have decided not to do so. The Company meets the criteria under Section 167. However, the directors have decided not to establish an audit committee for the Company as there is an audit committee in place at the ultimate parent level, Gartner USA, who also has an internal audit department which operates throughout the group to assist in testing and monitoring adherence to internal controls and policies.

Directors' compliance statement

The directors, in accordance with Section 225(2) of the Companies Act 2014, acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that section arising from the Companies Act 2014 and Tax laws ('relevant obligations'). The directors confirm that:

- a compliance policy statement has been drawn up setting out the Company's policies with regard to such compliance;
- appropriate arrangements and structures that, in their opinion, are designed to secure material compliance with the Company's relevant obligations, have been put in place; and
- a review has been conducted, during the financial year, of the arrangements and structures that have been put in place to secure the Company's compliance with its relevant obligations.

Political contributions

The Company made no political contributions during the year *(2019: €nil)*.

Auditor

In accordance with Section 383(2) of the Companies Act 2014, the auditor KPMG, Chartered Accountants, will continue in office.

Statement of directors' responsibilities in respect of the Directors' Report and the financial statements

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with FRS 101 *Reduced Disclosure Framework*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its profit or loss for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that the financial statements comply with the Companies Act 2014. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a directors' report that complies with the requirements of the Companies Act 2014.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GARTNER IRELAND LIMITED

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Gartner Ireland Limited ('the Company') for the year ended 31 December 2020 set out on pages 11 to 35, which comprise the Profit and Loss Account, Statement of Other Comprehensive (Loss) / Income, Balance Sheet, Statement of Changes in Equity and related notes, including the summary of significant accounting policies set out in note 1. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 101 *Reduced Disclosure Framework*.

In our opinion, the accompanying financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with FRS 101 *Reduced Disclosure Framework*; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ((ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We have nothing to report on going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Other information

The directors are responsible for the other information presented in the annual report together with the financial statements. The other information comprises the information included in the directors' report. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GARTNER IRELAND LIMITED *(continued)*

Report on the audit of the financial statements *(continued)*

Other information *(continued)*

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information;

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

Opinions on other matters prescribed by the Companies Act 2014

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GARTNER IRELAND LIMITED *(continued)*

Respective responsibilities and restrictions on use *(continued)*

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

1 Accounting policies

Gartner Ireland Limited (the "Company") is a private company incorporated and domiciled in Ireland. The registered number is 182294 and the registered address is Two Park Place, Upper Hatch Street, Dublin 2, Ireland.

Basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* ("FRS 101") as issued in August 2014. The amendments to FRS 101 applicable and effective for financial years presented, have also been applied.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with the Companies Act 2014 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- a cash flow statement and related notes;
- comparative period reconciliations for share capital, tangible fixed assets, and intangible assets;
- additional comparative information for narrative disclosures and information, beyond IFRS requirements;
- disclosures in respect of related party transactions;
- certain disclosures under IFRS 15 *Revenue from Contracts with Customers*;
- certain disclosures under IFRS 16 *Leases*;
- the effects of new but not yet effective IFRSs;
- a statement of compliance with IFRS (a statement of compliance with FRS 101 is provided instead);
- disclosures in relation to the objectives, policies and process for managing capital; and
- disclosures in respect of the compensation of key management personnel.

As the consolidated financial statements of Gartner Inc., a corporation organized under the laws of the State of Delaware, United States of America, and the ultimate parent entity of the Company ("Gartner USA"), include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- The disclosures required by IFRS 7 *Financial Instrument Disclosures* and IFRS 13 *Fair Value Measurement* regarding financial instrument disclosures have not been provided apart from those which are relevant for the financial instruments which are held at fair value and are not either held as part of trading portfolio or derivatives; and
- Certain disclosures required by IAS 36 *Impairment of Assets* in respect of the impairment of indefinite life intangible assets;

The Company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

The financial statements have been prepared in Euro.

Notes *(continued)*

1 **Accounting policies** *(continued)*

Consolidation

The Company is exempt per Section 300 of the Companies Act 2014 from the requirement to prepare consolidated financial statements in accordance with International Financial Reporting Standards on the basis that it is an indirect wholly owned subsidiary of Gartner USA which prepares and files consolidated financial statements incorporating the results of the Company. Accordingly, these financial statements present information about the Company as a single entity together with its branches.

The following accounting policies, unless otherwise stated, have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

1.1 Measurement convention

The financial statements are prepared on the historical cost basis. Non-current assets and disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

1.2 Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position, are set out in the business review on pages 2 - 6. After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

1.3 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of tangible assets. The estimated useful economic lives are as follows:

Short leasehold improvements	-	shorter of the lease term or the useful economic life of the assets
Computers	-	3 years
Telephone and office equipment	-	5 years
Furniture & fixtures	-	8 years

Depreciation methods, useful lives and residual values are reviewed at each balance sheet date.

1.4 Intangible fixed assets

Intangibles assets that are acquired by the Company are stated at cost less accumulated amortisation and accumulated impairment losses.

Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of intangible assets. The estimated useful economic lives are as follows:

Tradename	-	Indefinite life
Technology	-	3 years
Content	-	2 years
Institutional process	-	10 years

Notes (continued)

1 Accounting policies (continued)

1.5 Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity securities, trade and other debtors, cash and cash equivalents, and trade and other creditors. Subsequent to initial recognition, all assets are measured at amortised cost within the scope of IFRS 9.

Trade and other debtors

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Investments in equity securities

Investments in subsidiaries are carried at cost less impairment.

1.6 Derivative financial instruments

Derivative financial instruments are recognised at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged.

Forward contracts

The Company has foreign exchange transaction risk, since it typically enters into transactions that are denominated in foreign currencies which differ from the local functional currency. The Company enters into short-term foreign currency forward exchange contracts to mitigate the economic effects of these foreign currency transaction risks. These contracts are accounted for at fair value with realised and unrealised gains and losses recognised in Other Expense, net since the Company does not designate these contracts as hedges for accounting purposes.

1.7 Foreign currencies

Transactions in foreign currencies are translated to the Company's functional currencies at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised in the profit and loss account.

The profits and losses of branches denominated in foreign currencies are translated at average rates for the period. Exchange differences resulting from the retranslation of the opening balance sheets of branches denominated in foreign currencies at closing rates, together with the differences on the translation of the income statements, are included in other comprehensive income.

Notes (continued)

1 Accounting policies (continued)

1.8 Leases

The Company accounts for leases under IFRS 16, *Leases*. Under IFRS 16, the Company assesses whether a contract is, or contains, a lease based on the definition of a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For facility leases, the Company has elected not to separate non-lease components and account for both the lease and non-lease components as a single lease component. The Company recognises a right-of-use asset and a lease liability at the lease commencement date for all leases including short-term leases. The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets including office equipment and other assets unless they are part of the facility lease arrangements and share reasonably similar characteristics.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate as the Company's lease agreements do not provide implicit interest rates. The incremental borrowing rate is calculated for each individual lease and represents the rate of interest that the Company would have to pay to borrow on a collateralized basis over a similar term an amount equal to the lease payment in a similar economic environment. The lease liability is remeasured when there is a change in future lease payments. At remeasurement, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

1.9 Employee benefits

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

1.10 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

Notes *(continued)***1** **Accounting policies** *(continued)***1.11** **Impairment***Financial assets (including trade and other debtors)*

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether it is impaired using the expected credit loss model ("ECL") as required under IFRS 9 *Financial Instruments*. Loss allowances are measured as 12-month ECL if the credit risk on the financial asset has not increased significantly since the initial recognition. If the credit risk has increased significantly, lifetime ECL are recognized.

ECL are a probability-weighted estimate of credit losses over the expected life of the financial instrument. For a financial asset that is not credit-impaired at the reporting date, loss allowances are calculated as the present value of all cash shortfalls (i.e. the difference between all contractual cash flows that are due in accordance with the contract and all the cash flows that are expected to be received), discounted at the original effective interest rate. For a financial asset that is credit-impaired at the reporting date but that is not a purchased or originated credit-impaired financial asset, loss allowances are calculated as the difference between the gross carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of loss allowances to decrease, the decrease in loss allowances is reversed through profit and loss.

Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units, or ("CGU"). Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a *pro rata* basis. Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes *(continued)***1** **Accounting policies** *(continued)***1.12** ***Dividends on shares presented within shareholders' funds***

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

1.13 ***Turnover***

The Company recognises revenue when performance obligations have been satisfied.

Continuous service revenues are recognised ratably over the applicable contract term (i.e. as the Company provides services over the contract period), generally a twelve-month period. The Company's policy is to record, at the time of signing of a continuous service contract, the fees receivable and related deferred revenues for the full amount of the contract billable on that date. Cancellations have not been significant. All contracts are billable at signing, except in certain limited cases when special terms are granted.

Revenues from consulting engagements are recognised as work is delivered or services provided and are evaluated on a contract by contract basis.

Publication and other non-continuous service revenues are recognised on the date of publication or completion of service.

Additionally, the Company has various licensing agreements with its group companies, which requires payments that provide the Company with a return in accordance with internationally accepted arm's length standards. Revenue is recognized when the Company has the right to receive payment under the terms of the licensing agreements.

1.14 ***Other income and expenses***

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method. Dividend income is recognised in the profit and loss account on the date the entity's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

The Company also records the related commission obligation upon signing of the contract and amortises the corresponding deferred commission expense over the contract year in which the related continuous services revenues are earned and recognised as income.

Notes *(continued)***2 Turnover**

Turnover represents the amounts (excluding Value Added Tax and other sales taxes) derived from the provision of goods and services to customers and other group companies.

(i) Customer contract assets and liabilities

The Company has recognised the following assets and liabilities related to contracts with customers:

	2020 €'000	2019 €'000
Assets:		
Trade debtors and accrued income, gross	28,099	34,592
Contract assets (1)	-	50
Loss allowance	(176)	(191)
	27,923	34,451
Contract liabilities:		
Deferred revenues (current liability)	42,233	43,732
Non-current deferred revenue	575	438
	42,808	44,170

(1) Contract assets represent recognised revenue for which we do not have an unconditional right to payment as of balance sheet date because the project may be subject to a progress billing milestone or some other billing restriction.

During the year ended 31 December 2020, the Company recognised €38,567,000 of revenue (2019: €31,048,000) that was attributable to deferred revenue that was recorded at 31 December 2019. In 2020, the Company recorded €176,000 loss allowance (2018: €191,000) for contract assets (see note 1.11 for impairment accounting policy).

(ii) Assets recognised from the costs to obtain or fulfil contracts with customers

Upon the signing of a customer contract, the Company capitalises the related commission as a recoverable direct incremental cost of obtaining the underlying contract and records a corresponding commission payable. No other amounts are capitalised as a cost of obtaining or fulfilling a customer contract because no expenditures have been identified that meet the requisite capitalisation criteria. For research, consulting and other, the straight-line method is used for amortising deferred commissions over a period that is based on the projected recoverability for such costs, using factors such as the underlying contract period, the timing of when the corresponding revenues will be earned and the anticipated term of the engagement.

At 31 December 2020, the balance of prepaid commissions and related fringe was €6,551,000 (2019: €6,927,000) in connection with costs to obtain or fulfil contracts with customers. During the year ended 31 December 2020, the Company recognised €10,229,000 amortisation expense (2019: €9,925,000) on commissions and related fringe and €nil impairment.

Notes (continued)

3 Interest receivable and similar income

	2020 €'000	2019 €'000
Interest receivable on intercompany loans	143	338
	<u>143</u>	<u>338</u>

4 Interest payable and similar expenses

	2020 €'000	2019 €'000
Interest payable on intercompany loans	192	272
	<u>192</u>	<u>272</u>

5 Expenses and auditor's remuneration

Profit before tax is stated after charging for the following:

	2020 €'000	2019 €'000
Audit of these financial statements	27	24
Tax services performed by the Company's audit firm	53	8
Depreciation of owned tangible fixed assets (note 11)	326	69
Amortisation of owned intangible assets (note 13)	51,201	31,032
Foreign exchange (gain) / loss	(2,409)	642
	<u>(2,409)</u>	<u>642</u>

6 Directors' remuneration and transactions

	2020 €'000	2019 €'000
Directors' remuneration		
Directors' emoluments	775	267
Company contributions to money purchase pension schemes	15	20
Amounts to third parties in respect of Directors' services	15	15
	<u>805</u>	<u>302</u>

Notes *(continued)*

7 Staff numbers and costs

The average number of persons employed by the Company during the year, analysed by category, was as follows:

	2020	2019
	Number	Number
Professional	47	40

The aggregate payroll costs of these persons were as follows:

	2020	2019
	€'000	€'000
Wages and salaries	7,821	6,910
Social security	876	763
Contributions to defined contribution plan	442	361
	9,139	8,034

Administrative services and support are provided by various group companies.

Certain employees are remunerated with equity awards in the ultimate parent company. The charge during the current and prior years is considered to be immaterial; therefore, no further disclosure is provided for these transactions.

8 Income from investments in subsidiaries

	2020	2019
	€'000	€'000
Dividend income from shares in other group companies	19,852	20,000
	19,852	20,000

9 Employee benefits

All pension entitlements of staff are met by payments to a group externally funded defined contribution scheme which is vested in independent trustees, nominated for the sole benefit of employees and their dependants.

The total pension cost for the year amounted to €441,585 (2019: €360,649). The balance of contributions due to the defined contribution scheme at 31 December 2020 was €nil (2019: €nil).

Notes *(continued)***12 Leases**

The Company's leasing activities are primarily for facilities under a non-cancellable lease agreement expiring in May 2034. This facility lease agreement contains a one-time termination option with a 6-month exercise window from November 2028 to May 2029. Additionally, the lease provides for a rent review in May 2024 based on changes in the market value. The Company also leases certain office equipment and other assets, which are part of the facility lease arrangements, share similar characteristics and therefore are treated as part of facility leases.

	526,605	356,562

Amounts owed to group undertakings are interest-free and repayable on demand.

20 Derivative financial instruments

As of 31 December 2020, the Company has 69 (2019:66) short-term foreign currency forward exchange contracts outstanding with notional contract amount of €123,079,363 (2019: €94,945,564). The fair value of the forward exchange contracts at the end of the year is a €13,476 liability (2019: asset €50,667). All of the outstanding contracts at 31 December 2020 matured by the end of January 2021.

Fair values of derivative financial instruments

IFRS 7 and IFRS 13 provides a framework for the measurement of fair value and a valuation hierarchy based upon the transparency of inputs used in the valuation of assets and liabilities. Classification within the hierarchy is based upon the lowest level of input that is significant to the resulting fair value measurement. The table below analyses financial instruments, into a fair value hierarchy based on the valuation technique used to determine fair value.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

The fair values of derivative financial instruments by class shown in the balance sheet are as follows:

	Fair value	Fair value
	2020	2019
	€000	€000
IFRS 9 categories of financial instruments designated as fair value through profit or loss		
Foreign currency forwards	(13)	51
Total financial (liabilities) / assets at fair value through profit or loss	(13)	51

The Company enters into foreign currency forward exchange contracts to hedge the effects of adverse fluctuations in foreign currency exchange rates. Valuation of the foreign currency forward contracts is based on foreign currency exchange rates in active markets, which the Company considers a Level 2 input. Further disclosure is not provided on the basis of materiality.

Capital reserves

Capital reserves represent contributions of capital in the form of cash, shares in subsidiary undertakings or assets from the Company's ultimate parent, Gartner USA. Of capital reserves, €901,022,000 represents share premium (2019: €901,022,000).

Other reserves

Other reserves represent the exchange differences resulting from the retranslation of the opening balance sheets of branches denominated in foreign currencies at closing rates, together with the differences on the translation of the income statement.

22 Related parties

The Company has availed of the exemption available in paragraph 8(k) of FRS 101 from disclosing transactions with group undertakings. Other than transactions with related group undertakings there are no related party transactions requiring disclosure.

23 Ultimate parent company and parent company of a larger group

As of 31 December 2020, the Company's immediate parent undertaking is Gartner Research Holdings Limited, and the Company's ultimate parent undertaking is Gartner USA. The largest and smallest group in which the results of the Company and its subsidiary undertakings are consolidated is that headed by Gartner USA whose registered office address is 251 Little Falls Drive, Wilmington, Delaware 19808. The consolidated financial statements of Gartner USA are available to the public on www.investor.gartner.com and also on www.sec.gov, and may be obtained by making written request to Investor Relations Department, Gartner, Inc., 56 Top Gallant Road, Stamford, CT 06904, U.S.A.

Notes *(continued)*

24 Accounting estimates and judgements

The preparation of financial statements requires the use of estimates and judgements about future events. Management develops estimates using both current and historical experience, as well as other factors, including the general economic environment and actions that may be taken in the future. Management adjusts such estimates when the facts and circumstances dictate. However, Management's estimate may involve significant uncertainties and judgements and cannot be determined with precision. In addition, these estimates are based on best judgement at a point in time and as such these estimates could be material and would be reflected in the Company's financial statements in future periods. Management's selection of the accounting policies which contain critical estimates and judgements is listed below:

- Lease accounting: note 1.8 – In determining the lease term, the Company makes a judgement whether it is reasonably certain to exercise extension options. Additionally, the application of the incremental borrowing rate involves estimates and assumptions.
- Impairment on trade debtors or contract assets: note 1.11 – The Company makes an estimate of the recoverable value of trade and other debtors. The Company applies IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade debtors and contract assets.
- Impairment on non-financial assets: note 1.11 – If there is an indication of impairment of these assets, an assessment will be undertaken to determine an estimate of the recoverable value of the asset.
- Revenue recognition: note 1.13 – A judgement is made to recognise revenue evenly over the contract period, with reference to the milestones achieved in the terms of the contract.

25 Approval of the financial statements

The board of directors approved the financial statements on 10 June 2021.
